

## **Needs Assessment Results and Next Steps**

The Board received an updated on the results of the Needs Assessment Survey. The survey highlighted **areas of strength and opportunities** with the district. It also highlighted areas where the responses from the Staff /Admin didn't align with those from the Students/Parents. The board and administration have **committed to increase the communication** around current initiatives as well as those coming soon that will be focused on addressing the opportunities and/or gap in the responses between Staff/Admin and Students/Parents. Additional information and progress updates will be communicated through upcoming **Newsletters, District Website and Future Board Meeting updates.**

## **Varsity Football Next Fall?**

The Board was presented with **two options** of playing **Varsity football next Fall.** More information including **Student and Parent surveys** will be compiled in the next week or so with a decision by the board in December on which option we will pursue. We are excited that our kids will be able to play and compete at the varsity level next Fall.

## **Iowa Star Conference**

The Board has accepted an invitation to **join the Iowa Star Conference next year.** Our next step is to send the Iowa Star Conference an official Letter of Intent to join the conference which we expect to be reviewed and accepted in their November meeting. We are looking forward to this opportunity to join a great conference that will **include some of our neighboring districts.**

Thanks for allowing us to serve our communities and children!

**Ottie**

**Superintendent**

**Marcus**

**School Board President**
